JIHUN PARK

jhp503@gmail.com | 82) 010 4096 5031

Education

Hongik University | Seoul, Republic of Korea | Expected in 02/2027
Bachelor of Architecture: Architecture
GPA: 3.69

Exchange | Freie Universität Berlin, Germany | 07/15/2026 – 08/16/2026

Urban Anthropology Course

Experience

Student Academic Society | ADD+ | 09/2025 - present

- Developed Emotion Sphere from a prototype to an exhibition mixing human emotion and AI in spatial design, and organized the exhibition space with society members.

Graduation Exhibition | Hongik University | 06/2026

- Built a camera-based program that reads how many people are present and their expressions and changes the spatial atmosphere based on that information.

Hackathon | OpenAI x Primer | 02/2026

- Built Deary, a diary-automation SaaS, and learned how to keep it running.

Intern | Namu Architectural Office - Apgujeong, Seoul | 07/2023 - 09/2023

- Developed 3D models of proposed buildings and structures with Rhino3D and SketchUp, and drawings and renderings with AutoCAD and Photoshop.
- Created scale models of buildings and topography.
- Participated in team brainstorming sessions to generate ideas for new projects.

Military Service | Sergeant at The Republic of Korea's Army | 03/2021 – 09/2022

- Gained experience in duty officer tasks, learned to live in an army barrack with hundreds of other soldiers.

Skills

Software

- Proficiency in AutoCAD, SketchUp, Rhino, and Adobe tools (Photoshop, Illustrator, InDesign)
- Basic Revit modeling
- Skilled in rendering tools (D5, Enscape, Lumion, Twinmotion)
- Accustomed to Python and Grasshopper scripting for parametric design
- Built a RAG system on a VPS with coding agents (Cursor, Codex, Claude Code, Antigravity)

Language

- Korean: first language
- English: C1, 9-month language study in Toronto, Canada(05/2024 – 01/2025)
